PROFESSIONAL STATEMENT

To secure a position in a well-established pharmaceutical company with a dynamic environment where I can coincide with hard-working, with challenges and enthusiasm, which enables me to utilize the existing competencies, knowledge, and ability to work well with people toward the organization's growth. Also, to develop new skills through continuous learning for an innovative, challenging, and responsible career.

KEY SKILLS AND QUALIFICATIONS

- The pre-formulation study, new formulation development for sterile products, and reformulation of existing sterile products.
- Performing trial batches, stability batches, and loading & unloading of samples from chambers. Manufacturing and transferring Method Validation sample.
- Preparing Master lists, SOP, BMR & BPR, stability study protocols, compatibility testing protocols (contact parts, drug-excipients), photo-stability testing protocols, in-use stability study protocols, products specifications, process optimization, and validation protocols & reports, Interim reports, logbooks, and Pharmaceutical development report.
- Preparing NCL/DTL samples for submission.
- Keeping track of all the qualification records and calibration certificates of laboratory instruments/equipments.
- Preparing recipes and other related documents for regulatory requirements.
- Performing activities related to process optimization & process validation batches in coordination with other departments. Coordination of Technology Transfer and Product life cycle management. Resolving technical feasibility and process design.

EDUCATION AND TRAINING

Masters in Pharmacology and Clinical Pharmacy	May 2019 – September 2021
North South University, Dhaka (Bangladesh).	
CGPA 3.54 on a scale of 4.00	
Bachelor of Pharmaceutical Sciences	May 2014 - December 2018
North South University, Dhaka (Bangladesh).	
CGPA 3.44 (87%-89% marks) on a scale of 4.00	
Higher Secondary Certificate	2010 - 2012
University Laboratory College, Dhaka (Bangladesh).	
GPA 5.00 (on a scale of 5.00)	
Secondary School Certificate	2008 - 2010
Hajee Shariat Ullah Adarsha High School, Dhaka (Bangladesh).	
GPA 4.81 (on a scale of 5.00)	

Industrial Exposure

09 October 2018 - 22 October 2018

Beximco Pharmaceuticals Ltd., Dhaka (Bangladesh).

Departments and units covered: Human Resource Department, Production Planning, Warehouse, QC, QA, Research and Development, SLD, Infusion Unit, Engineering Services and Utilities, Environment Health & Safety, and Training.

WORK EXPERIENCES

Aristopharma Ltd. Gazipur, Dhaka, Bangladesh.

December 2020 - Present

Senior Executive, Research and Development (Formulation)

- Plan, coordinate, and perform activities ranging from the pre-formulation study, new formulation design & development, reformulation of existing products, stability studies of the product, process characterization, BMR & BPR preparation, technology transfer, and scale-up batch. Also, evaluating and resolving technical feasibility and design optimization.
- Used the following machine/equipment in the laboratory:
Micro/semi-micro balances, Osmometer, pH meter, DO meter, sealing machine, Tablet friability tester, Vortex machine, Disintegration apparatus, Dissolution tester, Silverson mixer, slide calipers.

Sanofi Bangladesh Ltd. Dhaka, Bangladesh.

September 2019 - October 2019

Pharmaceutical Content Writer

- Researching, extracting, and providing related scientific data & information on specific drug molecules on various diseases conditions from different journals & literature, and guidelines (CDC, NHS, NICE, IDSA, ERS, ATS).
